

THERMAX Sheathing Insulation / Finish Boards are recommended for exposed applications for wall /roofs, attics, ducted plenums and/or ceilings in agricultural, commercial and industrial buildings such as factories, warehouses, agricultural structures, parking garages, mercantile establishments, aircraft hangers, cold storage structures, tennis courts, skating rinks, swimming pools, etc.

THERMAX is NOT to be used in plenum areas that are used as air return ventilation nor is it a replacement for duct insulation.

FuhSCO Inc. is an independent sales company. The drawings were developed using industry recommended methods of construction and the resulting drawings should be used with proper engineering judgment for specification development purposes only.
